**Subject:** Degree Audit RFP is Live

Dear Friends,

We are excited to announce the launch of a Request for Proposal (RFP) for a new degree audit and four-year planner system. We plan to select a product by the end of December 2024. While the implementation timeline will be finalized once the contract is awarded, these projects typically involve multi-year migrations that align with new catalog years.

The goal of this implementation is to select a student-friendly product that provides greater transparency regarding students' progress towards degree and credential requirements and offers functionality to help learners plan their coursework effectively. Additionally, the system will provide alerts if registration choices could delay graduation beyond four years so that students can make informed decisions moving forward.

**We could use your help.** These tools are based on the approved curriculum listed in the catalog. As you work with students and the curriculum, if you identify any discrepancies between the catalog and what is coded in the degree audit, please report them to [degreeaudit@utah.edu](mailto:degreeaudit@utah.edu). If you work with departmental curriculum, please take the next year to update the requirements for your **majors, minors, certificates, emphases, etc.** If you are involved in transfer course evaluation, please ensure that your evaluations are completed in a timely manner.

You can visit [this site](#) to stay updated on our progress. We will continue to share updates with this community, and we appreciate your help in circulating this message.

Best wishes,

Erin Mason  
University Registrar
